Work Experience

Frontend Developer, *Freelance*   01/2020 – Current
- Web3 development for decentralized exchanges, protocol aggregators, and NFT markets
- Generated Storybook component libraries to test UI in isolation and encourage reusable components for rapid development and improved reliability
- Contributed to open-source web3 tools, crypto apps, community tools, and documentation

Skills: React, Redux, TypeScript, Storybook, TailwindCSS, Webpack, CI/CD, Git, Web3 libraries

Technology Specialist, *VMLY&R*   03/2018 – 10/2019
- Maintained comprehensive documentation for projects to aid in onboarding of new team members and enforce code conventions
- Optimized the packaging of applications with build tools like Gulp and Grunt
- Incorporated modern operational and application delivery tools and methodologies into production deployment workflows
- Mentored junior team members and provided constructive feedback on pull requests
- Developed internal tools with 3rd party APIs to enhance project estimates and team resourcing

Skills: Angular, Vue, JavaScript, Sass, CSS3, HTML5, Grunt, Gulp, AEM, Sketch, Jenkins, Git, Jira

Technology Associate, *VMLY&R*   07/2015 – 03/2018
- Worked jointly with design teams to create beautiful, interactive, and responsive interfaces
- Extensive experience building websites in AEM using component driven development (CDD) for e-commerce and financial service solutions
- Taught others through code reviews, speaking engagements, and meet-ups resulting in higher quality code bases, faster sprint completions, fewer defects, and boosts in developer moral

Skills: JavaScript, CSS, Sass, HTML5, Angular, AEM, Grunt, Photoshop, Sketch, jQuery, Bootstrap, Jira

Web Developer, *TEKsystems*   09/2012 – 07/2015
- Built responsive mobile-first sites for AEM, WordPress, and Drupal
- Cleared bugs from project backlog to aid in hitting project deadlines

Skills: JavaScript, CSS, AEM, WordPress, Drupal, Photoshop, jQuery, PHP, Bootstrap

Education

B.S. in Computer Science, *Northwest Missouri State University*   05/2011
Minors in Mathematics, Data Management Systems
